

New album „SOUND OF TIME“

December, 2015

THE COMETS OF DOOM will shortly release their second Album.

Genre: Alternative Metal

12 Songs with burning riffs and varied rhythms from the world of metal and alternative rock.

The new full length album SOUND OF TIME has been recorded and mixed by Achim Dressler at Wellencocktail Studio in Hanover, Germany, who has given the band a transparent, powerful and international sound that perfectly complements the dense and catchy songs. When the sound of the five Comets hits your ears, the impact will have permanent effect.

The band is a tight formation of guitars, bass, drums and vocals, and every single track of SOUND OF TIME bears witness of that.

THE COMETS OF DOOM bring ruin and destruction – for boredom and misery – because with their new album SOUND OF TIME the time to rock has come!
